

DSA + LinkedIn

Daily Posting Guide for Consistent Growth

DSA seekh rahe ho? Sirf ek chiz aur karo — **roz LinkedIn pe share karo**. Consistency banegi, personal brand banegi, aur padha hua yaad bhi rahega.

1. Daily Routine — Sirf 10 Minutes

- 1 Question solve karo ya concept padho**
e.g. Aaj Two Pointers padha / Reverse Linked List solve kiya
- 1 key insight note karo (apni language mein)**
Kya naya seekha? Kahan galti hua? Kya trick kaam aayi?
- 3 Template fill karo (neech se)**
5 min se zyada mat lagao — short aur honest likho
- 4 3-5 relevant hashtags add karo**
#DSA #LeetCode #CodingJourney #100DaysOfCode #DataStructures
- 5 Post karo — perfect hone ka wait mat karo!**
Consistency > Perfection. Roz ek choti post beats kabhi kabhi badi post

2. Post Templates — Copy & Fill Karo

Template 1 — Daily Question Post

Ek question solve kiya

Day [X] of DSA ■

Today I solved: [Question Name] ([Easy / Medium / Hard])

Topic: [e.g. Strings / Arrays / Linked List]

My approach:

-> [1-2 line mein kya socha]

-> Time: O([]) | Space: O([])

Key insight I learned:

"[Apne words mein 1 line]"

Struggling but not stopping ■

#DSA #LeetCode #CodingJourney #100DaysOfCode

Template 2 — Concept Explanation Post

Ek theory / concept padha

Day [X] — Understanding [Concept Name] ■

What is it?

[1-2 simple lines mein explain karo]

Real life example:

[e.g. Two Pointers = do log ek line mein opposite directions mein chalte hain]

When to use it:

[✓] [Use case 1]

[✓] [Use case 2]

Still learning, but sharing karna mujhe bhi clear karta hai!

#DSA #DataStructures #Algorithms #LearnInPublic

Template 3 — Combo Post (Theory + 2 Questions)

Jab ek din mein theory bhi padha aur 2 questions bhi solve kiye

Day [X] — Double Session Today! ■

■ Concept I studied: [Topic Name]

[1-2 line mein kya samjha]

■ Question 1: [Question Name] ([Easy / Medium / Hard])

Approach: [1 line]

Time: $O([])$ | Space: $O([])$

■ Question 2: [Question Name] ([Easy / Medium / Hard])

Approach: [1 line]

Time: $O([])$ | Space: $O([])$

Biggest takeaway of the day:

"[Ek key learning jo connect karta ho theory aur questions ko]"

Slow progress is still progress ■

#DSA #LeetCode #CodingJourney #LearnInPublic #100DaysOfCode

Template 4 — Sunday Week Review

Sunday weekly recap

Week [X] DSA Review ■

This week I covered:

[■] [Topic 1]

[■] [Topic 2]

[■] [Topic 3]

Questions solved: [X]

Hardest: [Question name]

Easiest: [Question name]

What I'll focus on next week: [Topic]

Agar tum bhi DSA seekh rahe ho — let's connect! ■

#DSA #WeeklyReview #CodingJourney #SoftwareEngineering

3. Topic Roadmap — Kab Kya Post Karein

Stage	Topics	Post Idea
Completed ✓	Arrays, Strings, Two Pointers, Sliding Window	Best question solve karo aur post karo
Coming Up	Linked List, Stack, Queue, Recursion	Concept ki real-life analogy explain karo
Advanced	Binary Search, Trees, Graphs, DP	Before/After comparison post karo

4. Pro Tips — LinkedIn Pe Achhe Results Ke Liye

→ Beginner hona strength hai

Log honest journey se connect karte hain. "Main seekh raha hoon" wali post zyada relatable hoti hai.

→ Perfect mat dhundho

Roz 3-4 lines ki post bhi kaafi hai. Important hai roz dikhna, ek baar mein sab explain karna nahi.

→ Screenshot zaroor lagao

LeetCode accepted submission ya code ka screenshot attach karo — engagement 2x badh jaata hai.

→ Best posting times (IST)

8-9 AM ya 7-8 PM. Raat ko likho, subah post karo.

→ #100DaysOfCode join karo

Is community mein bahut log hain — connections aur encouragement dono milte hain.

→ Galti share karo

"Aaj ye galti hua aur aise fix kiya" — ye posts bahut zyada viral hoti hain.

5. Essential Hashtags

#DSA	#LeetCode	#CodingJourney	#100DaysOfCode	#DataStructures
#Algorithms	#LearnInPublic	#SoftwareEngineering	#TechTwitter	#Programming

Remember: **Consistency > Perfection.** Roz ek choti post bhi kaafi hai. Aaj se start karo! ■
